ICT Tools reports

ECAP:

ECAP application is used by the institute to make the data available to all the students as well as all the faculty. All the students and faculty are involved in all the activities of the institute through the ECAP app.

Video lectures:

The faculty are using video lectures for teaching. Lectures are recorded to video, audio or both, then uploaded and made viewable on a designated site. Studies have shown that students improve significantly in courses with online archived lectures, especially international students.

BATTERIES

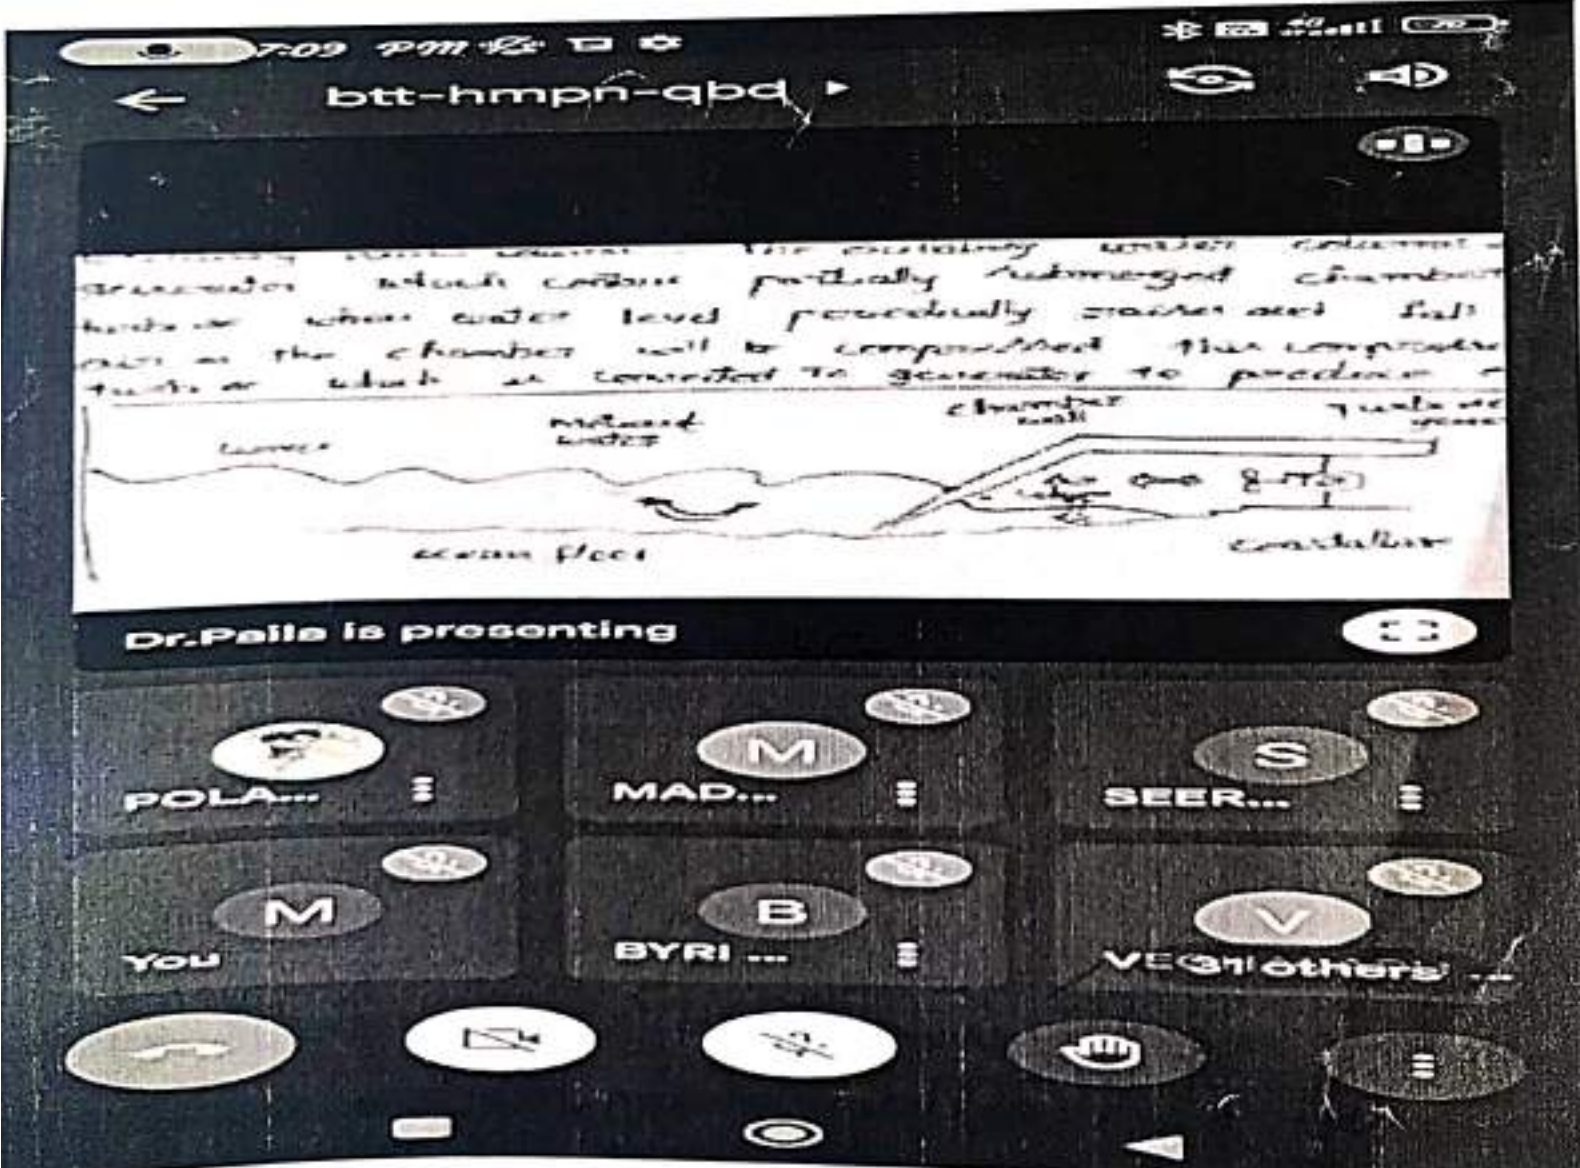

device consisting of one or more electrochemical cells that convert stored chemical energy into electrical energy. These batteries are used as source of 1

- Types:
- 1) Primary cells (or) Dry cell.
 - 2) Secondary cells (or) rechargeable
 - 3) Fuel cells

Primary cells:
 Disposable batteries, which are designed to use once. The chemical reaction is not reversible, hence when all the energy is used up, the battery is discarded.

Subject: Construction Technology and Project Management

Year/ Sem: III / I

AY: 2022-23

Faculty: M RVSG Gupta

Teaching Methodology: ICT_PPT

Date: 15-10-2022

Course Learning Objectives:

1. To introduce to the student, the concept of project management including network drawing and monitoring
2. to introduce the various equipment related to construction like earth moving equipment, trucks and handling equipment, aggregate production and construction equipment and machinery
3. to introduce the importance of safety in construction projects

Course Outcomes:

Upon the successful completion of this course, the students will be able to:

1. Appreciate the importance of construction planning
2. Understand the functioning of various earth moving equipment
