Student satisfaction has been always given emphasis throughout the years of operation of Dadi Institute of Engineering and Technology. The feed-back system is practiced with the main intention of collecting suggestions for improvement the academic as well as the non-academic atmosphere of the institution from the students.

Student Satisfaction Surveys have been conducted periodically for this purpose. The Student Satisfaction Survey conducted in 2022 by the Internal Quality Assurance Cell was aimed at the quality improvement of the college by receiving inputs from students.

The survey was conducted using Google Forms. In order to ensure full transparency and fairness, the online form was designed to be filled-in anonymously and without any bias by the students.

The questionnaire had 20 questions and provision for recording additional observations and suggestions. A total number of 921 students representing around fifty eight percent of the total strength participate in the survey. The responses to the questions were collected on a five point scale. The findings of the survey are analyzed in the following sections of this document.

Summary

Students are generally satisfied regarding the overall teaching-learning process of the institution, but some students have made some suggestions also for further improvement such as use of more ICT tools, more opportunities for internships and field visits, in-campus training programmes, more facilities in laboratories etc. The College academic bodies have positively taken into account the remarks.

Participation

Fifty Eight percent of the total students of the College have participated in the SSS. The UG participation comes around Ninety five percent of the total and PG participation comes around Five percent. Every department has been represented well in the survey. More than Fifty percent of the students from all the years of the study have participated in the survey making the overall participation to Fifty Eight percent.
