SEMINAR ON INNOVATION, IPR AND ENTREPRENEUR DEVELOPMENT REPORT

9th March, 2019

Organized by

Project Review Committee

Dadi Institute of Engineering & Technology

Project Review Committee of Dadi Institute of Engineering & Technology (DIET) has successfully organized Seminar on Innovation, IPR and Entrepreneur Development in air conditioned Seminar Hall in DIET campus with Dr. B.K. Sahu, Regional Manager, NRDC, IPFC & TISC, as the distinguished speaker, Management members, Teaching and Nonteaching Staff, and students with innovative ideas.

About Project Review Committee, DIET

Project Review Committee (PRC) of Dadi Institute of Engineering & Technology is actively supporting the Staff and Students of DIET in developing Innovative **Projects**, Filing **Patents** and Publishing **Papers**. PRC is made up of representatives from all the departments - Civil, CSE, EEE, ECE and MBA. All the student projects of DIET are reviewed by the PRC along with Core Committee members of DIET.

Objectives of the Seminar

- To explore the inherent ideas in Students and Staff on Patents and Projects.
- To give awareness on Patent Filing, Project Proposal formats.
- To explain the benefits provided by the MOU between DIET and NRDC
- To motivate the staff and students to grab the opportunities available in research that help in career building.

Glimpses of Seminar

Event started with the lighting of lamps and a prayer song by Mrs P. Poorna Priya. Then the gathering is being addressed by the Chief Guest, Principal and Convenor followed by the session of Dr.B.K.Sahu. Ms. B.Neelima Devi has been the anchor for this event and Chief Guest profile is presented by Mr.P.V.Murali.

India is conducting quality research in many fields, but the country is lagging behind in patenting, according to National Research Development Corporation (NRDC) , Visakhapatnam Regional Manager Dr. B.K. Sahu

He was speaking after inaugurating a one day seminar on Innovation, Intellectual property right and Entrepreneurship at Dadi Institute of Engineering & Technology He said that “India is rich in research as it is ranked fifth in the globe in terms of research publications but poor in patenting”. He said that The NRDC is engaged to broaden and strengthen the technology resource base by fostering long-term relationships with R&D organizations, MSMEs, PSUs, academia, technical organizations, industries and also individual inventors.

He said MOU with DIET which is due to be signed will provide expert services in IPR management, technology transfer, training, techno- commercial evaluation of technologies developed by faculty/students, linkages with research funding agencies, linking to Startup India Mission and other relevant services.

As a resource person of the workshop he has given a lot of insights on how to work on research projects and how to get the funds to carry on the project. How one's ideas can be transformed and patented was clearly illustrated to the participants. He said he was moved by the innovative ideas of DIET students and asked them to patent and apply for funding.

The Chairman of DIET Sri Dadi Ratnakar asked the faculty and students to come up with quality research works and get them patented.

Principal Dr.Ch.S.Naga Prasad said that the session was arranged to facilitate the students and faculty to enhance their research capabilities and to develop an ecosystem to carry on with research works to be patented.

The Project Review committee convener Dr. K.Sujatha has motivated and assured the students of necessary assistance to carry on with their projects. Heads of all Departments, faculty and students participated in large numbers.

Around 150 participants have participated in the event and participation certificates were awarded to all the delegates.
