CRITERIA-4

4.3.3: Institution has dedicated audio visual centre, mixing equipment, editing facility, media studio, lecture capturing system(LCS) and related hardware and software for e-content development

E-Content Development

Media Centre

Dadi Institute Of Engineering and Technology Media Centre is a prominent resource centre to capture the various moments, activities and presentations and showcase them to the outside world and community which is runs by the department of Humanities and Science, and ECE department. It is developed as the nodal point for collecting consolidating and disseminating the information about the events happening in the institute to Media sources connects with the social networks. The main objective of the Media Center is to document in-house and external events to create a significant digital presence for the college on social media. It also records and manages the events, guest lectures and seminar from all the departments of the College, serves as the liaison between the institute and the Social Media Management Team to enable them to publish it on the various social media platforms to ensure global reach for the college. With the ever increase in demand for e-content from various stakeholders, the institute has felt the need for establishing a Media centre with all required facilities. The centre is equipped with facilities like video editing, audio mixing and basic animation softwares. With this facility in place, the institution is in a position to develop e-content and promote e-learning through online platform.

All the activities are done by the faculty coordinators and students of various clubs, committees/cells of the DIET The major roles of the media center are as follows:

- To archive the media coverage
- Handles the photography and video editing
- To develop e-contents
- To upload the posters/ images/videos in the social media Sample Connected Works:

Audio Visual Centre

Dadi Institute of Engineering and Technology has state of the art media centre with inbuilt Audio-visual facility. The Media Centre is designed to encourage collaborative learning and interaction & has the resources for developing e-content. English Department also offers a wide range of learning techniques that aim to improve the English language skills of students. The two centres, under the Audio-Visual Centre are the CALL and ISL. The Computer-Assisted Language Learning or the CALL strives to bridge the digital divide by providing all of the students with equal access to technology-aided education. The Interactive skills learning or ISL attempts to sharpen certain skills of students through activities such as group discussions, role-play activities, and the like. The Audio-Visual centre ensures that every student, irrespective of their background, is treated equally in terms of the equipment and learning techniques that they have access to, making the entire class subject to the good outcomes of the faculty's hard work. The students are provided with accent neutralization training, a deeper understanding of phonetics, and several other real-life skills like interview and presentation skills. These activities aim to improve the students' fluency in the English language and ensure that they graduate with the confidence they require to communicate in this day and age.

- Dedicated PC for designing & editing,
- Wall mount collapsible studio backdrop horizontal pole assembly
- E Image camera support tripod
- Audio Suite for NLE
