## Report of Workshop on Resume Building

A resume is a **formal document that a job applicant creates to itemize their qualifications for a position**. A resume is usually accompanied by a customized cover letter in which the applicant expresses an interest in a specific job or company and draws attention to the most relevant specifics on the resume.

Keeping this in mind the Career Guidance cell with the support of English faculty of the institute has organized Resume writing workshop for all the II & III B.Techstudents on 19<sup>th</sup> December, 2019.

The resource persons Mr. P.V. Murali, Mr.S.Panigrahi and Ms.S.Vanaja have provided the detailed information regarding what has to be incorporated in the resume and have guided them in the preparation of the resume .

### The speakers have asked the participants to make note of **5 Things one Should Always Include on their Resume**

- Job description keywords. Many employers use an applicant tracking system (ATS) to scan and rank your resume before they even lay eyes on it. ...
- Professional title. ...
- Certifications and credentials. ...
- Relevant websites. ...
- Stats on your resume.

They have asked the students to leave off details such as **height, weight, birth date, age, sex, religion, political affiliation, or place of birth**. Employers shouldn't make employment decisions based on these factors, and they may resent the fact that you are tempting them to do so. Keep your resume focused on the facts
