REPORT

AWARENESS PROGRAM ON WOMEN INNOVATORS FOR GIRL STUDENTS

On 26th FEBRUARY, 2018

Organized by

DIET Women Empowerment Cell (DWEC)

Dr. Ch. Prabhakar Rao, Incharge Principal addressed the gathering & sharing his ideas regarding women innovators. Women inventors are behind a wide range of key innovations, from Kevlar to dishwashers to better life rafts. Women inventors are behind a wide range of key innovations, from Kevlar to dishwashers to better life rafts.

“Fewer women run big companies than men named John.” Four years later, a ranking of the 100 most-innovative leaders in the United States contained just one woman. In response to criticism of the profound lack of diversity showcased by the list, the publication’s editor acknowledged that women never stood a chance, given the first filter in their data-driven methodology was possession of the CEO title.

Mrs.D.L.Mythri DWEC Co-ordinator from EEE Dept ,presenting women innovators list & giving her ideas that how to become a innovator & what are the steps to be taken by individual.

We've come up with 9 ways to empower women in your community and around the world.

1. Boost her self-esteem. ...
2. Shut down negativity. ...
3. Be open and honest. ...
4. Advocate for female colleagues. ...
5. Lead by example. ...
6. Help provide clean water. ...
7. Become a mentor. ...
8. Support women-run businesses.
9. Know your own worth.

Conveying to be as a Innovator what should be followed

Show your appreciation for the women in your life.

Say thank you, give and accept compliments, and help out the women around you.

Show the women in your life how much you appreciate them by sending a thank you card, giving them a compliment, or simply telling them what they mean to you.

Mrs.N.Usha Rani -DWEC Convener along with the respective Departmental DWEC Coordinators, Principal, Sri Dadi Ratnakar- Chairman, faculty and students participated in the programme.

INTERNATIONAL GIRL CHILD DAY

On 11th OCTOBER, 2018

Organized by

DIET Women Empowerment Cell (DWEC)

Dadi Institute of Engineering & Technology (DIET) has successfully conducted **INTERNATIONAL GIRL CHILD DAY** on 11.10.2018 from 10:00AM onwards at DIET Campus in Seminar Hall I.

Dadi Institute of Engineering & Technology was established by Sarada Educational Trust in the year 2006. DIET is founded by Sri Dadi Veerabhadra Rao, an academician and former Minister as the first multicultural and co-educational college in Anakapalle. DIET is the top ranked Engineering and Management Institute affiliated to JNTUK accredited by NAAC. The college is certified by ISO and associated with many professional bodies in the field of Engineering and Technology. DIET strives to promote high standards among students and enable them to build a new world. Dadi Institute of Engineering & Technology, with the same vision successfully completed 12 glorious and tremendous years of existence with academic excellence.

From this year onwards, DWEC of DIET planned to celebrate **INTERNATIONAL GIRL CHILD DAY** as a customary practice. We are thankful to Sri Dadi Ratnakar, Chairman for encouraging our idea to conduct this event.

International GIRL CHILD Day (IGCD) is an international observance day declared by the United Nations; it is also called the Day of Girls and the International Day of the Girl. October 11, 2012, was the first Day of the Girl Child.

The theme of International Day of Girl Child 2018:

It is celebrated for empowering and amplifying the voices of young girls around the world. The theme for International Day of Girl Child 2018 is **“With Her:A Skilled Girl Force”**.

Dr.Ch.S.Naga Prasad, Principal of DIET addressed the gathering and convey about importance of girl child in society. They go to school, **help with housework, work in factories**, make friends, care for elder and younger family members and prepare themselves to take on the responsibilities of adulthood. Girls play multiple roles in the household, society and the economy.

Mrs.Lavanya DWEC Co-ordinator of Civil Dept shared her views regarding International Girl child day As a woman, we need to work to ensure that she gets every opportunity to realize her

potential. By celebrating, **protecting and educating the girl child**, we empower her. By empowering our daughters we empower their communities which means empowering the nation!

Miss.Lakshmi DWEC Co-ordinator of EEE Dept shared her views about Educating the girl child produces mothers who are educated and will in return educate their children, care for their families and provide for their children. ... The girl child education also **prepares her to face realities in society** and teaches her to be a good wife and mother.

Mrs G Sujatha DWEC Convenor from ECE Dept concluded about the Girl child Day .A **Girl will confront man's negative masculinity**, admire his positive masculinity, bring to his attention the areas he needs to grow, celebrate his success but let him know he can do more, keep him in check and model to him that a powerful woman is not a threat to a powerful man.

Report:

The DWEC of Dadi Institute of Engineering & Technology (DIET) has successfully conducted **Iodine Deficiency Day** on 20.10.2018 at DIET Campus to raise awareness among the young graduates about the serious health consequences posed by the deficiency.

Sharing the symptoms of iodine deficiency, Dr Ch S Naga Prasad, Principal of DIET highlighted that Iodine deficiency is a health-related condition in which iodine availability is insufficient to meet the body's needs and which can be present with or without anemia. He further explained that Iodine is essential for the healthy functioning of the whole body, including that of the heart, muscles and red blood cells. It also plays an important role for the optimum mental and physical health, and to keep energy levels up.

Ms S.Shabeena, Assistant Professor of Electrical and Electronics Engineering in her presentation threw light on Iodine Deficiency Disorders and how Iodine deficiency impairs the cognitive development of children from infancy through to adolescence. Besides, she emphasized that it damages immune mechanisms and is associated with increased morbidity rates.

Mrs.G.Sujatha -DWEC Convener along with the respective Departmental DWEC Coordinators, Dr Ch S Naga Prasad, Principal, Sri Dadi Ratnakar- Chairman, faculty and more than seventy students participated in the program .

REPORT

Respected sir/madam

Dadi Institute of Engineering & Technology (DIET) has successfully conducted **INTERNATIONAL GIRL CHILD DAY** on 11.10.2019 from 10:00AM onwards at DIET Campus in Seminar Hall I.

Dadi Institute of Engineering & Technology was established by Sarada Educational Trust in the year 2006. DIET is founded by Sri Dadi Veerabhadra Rao, an academician and former Minister as the first multicultural and co-educational college in Anakapalle. DIET is the top ranked Engineering and Management Institute affiliated to JNTUK accredited by NAAC. The college is certified by ISO and associated with many professional bodies in the field of Engineering and Technology. DIET strives to promote high standards among students and enable them to build a new world. Dadi Institute of Engineering & Technology, with the same vision successfully completed 13 glorious and tremendous years of existence with academic excellence.

From this year onwards, DWEC of DIET planned to celebrate **INTERNATIONAL GIRL CHILD DAY** as a customary practice. We are thankful to Sri Dadi Ratnakar, Chairman for encouraging our idea to conduct this event.

International GIRL CHILD Day (IGCD) is an international observance day declared by the United Nations; it is also called the Day of Girls and the International Day of the Girl. October 11, 2012, was the first Day of the Girl Child.

The theme of International Day of Girl Child 2019:

It is celebrated for empowering and amplifying the voices of young girls around the world. The theme for International Day of Girl Child 2019 is “**Girlforce:Unscripted and Unstoppable**”.

Dr.Ch.S.Naga Prasad, Principal of DIET addressed the gathering and convey about importance of girl child in society. They go to school, **help with housework, work in factories**, make friends, care for elder and younger family members and prepare themselves to take on the responsibilities of adulthood. Girls play multiple roles in the household, society and the economy.

Mrs.Lavanya DWEC Co-ordinator of Civil Dept shared her views regarding International Girl child day As a woman, we need to work to ensure that she gets every opportunity to realize her potential. By celebrating, **protecting and educating the girl child**, we empower her. By empowering our daughters we empower their communities which means empowering the nation!

Miss.Lakshmi DWEC Co-ordinator of EEE Dept shared her views about Educating the girl child produces mothers who are educated and will in return educate their children, care for their families and provide for their children. ... The girl child education also **prepares her to face realities in society** and teaches her to be a good wife and mother.

Mrs.G.Sujatha DWEC Convener concluded about the Girl child Day .A Girl **will confront man’s negative masculinity**, admire his positive masculinity, bring to his attention the areas he needs to grow, celebrate his success but let him know he can do more, keep him in check and model to him that a powerful woman is not a threat to a powerful man.

Report

Respected sir/madam

The DWEC of Dadi Institute of Engineering & Technology (DIET) has successfully conducted **Iodine Deficiency Day** on 21.10.2019 at DIET Campus to raise awareness among the young graduates about the serious health consequences posed by the deficiency.

Sharing the symptoms of iodine deficiency, Dr Ch S Naga Prasad, Principal of DIET highlighted that Iodine deficiency is a health-related condition in which iodine availability is insufficient to meet the body's needs and which can be present with or without anemia. He further explained that

Iodine is essential for the healthy functioning of the whole body, including that of the heart, muscles and red blood cells. It also plays an important role for the optimum mental and physical health, and to keep energy levels up.

Ms S.Shabeena, Assistant Professor of Electronics and Communications Engineering in her presentation threw light on Iodine Deficiency Disorders and how Iodine deficiency impairs the cognitive development of children from infancy through to adolescence. Besides, she emphasized that it damages immune mechanisms and is associated with increased morbidity rates.

Mrs.G.Sujatha -DWEC Convener along with the respective Departmental DWEC Coordinators, Dr Ch S Naga Prasad, Principal, Sri Dadi Ratnakar- Chairman, faculty and more than seventy students participated in the programme.

Report

Respected sir/madam

Dadi Institute of Engineering & Technology (DIET) has successfully conducted **GENDER EQUALITY PROGRAM** in our DIET Campus on 11.11.2019 at 10:00AM on Birth day of MoulanaAbulKalam Azad.

Dadi Institute of Engineering & Technology was established by Sarada Educational Trust in the year 2006. DIET is founded by Sri Dadi Veerabhadra Rao, an academician and former Minister as the first multicultural and co-educational college in Anakapalle. DIET is the top ranked Engineering and Management Institute affiliated to JNTUK accredited by NAAC. The college is certified by ISO and associated with many professional bodies in the field of Engineering and Technology. DIET strives for promoting the highest standards among students enabling them to build a new world. We are thankful to Sri Dadi Ratnakar, Chairman for encouraging our idea of conducting , support given for organizing the **GENDER EQUALITY PROGRAM**.

Sri Dadi Ratnakar, Chairman spoke about Gender equality and he said it is one of the key challenges facing society today. Across the world it manifests in many forms, including pay, employment opportunities and access to education.

Dr Ch S Naga Prasad, Principal had covered benefits of Gender equality and spoke on how Gender equality prevents violence against women and girls.

Smt. G Sujatha, DWEC Convener explained the importance of Gender equality and also quoted that Gender equality is not only a fundamental human right, but a necessary foundation for a peaceful, prosperous and sustainable world.

There has been progress over the last decades: More girls are going to school, fewer girls are forced into early marriage, more women are serving in parliament and positions of leadership and laws are being reformed to advance gender equality.

Despite these gains, many challenges remain: discriminatory laws and social norms remain pervasive, women continue to be underrepresented at all levels of political leadership, and 1 in 5 women and girls between the ages of 15 and 49 report experiencing physical or sexual violence by an intimate partner within a 12-month period.

Faculty and Girl students were joined to this program and students were motivated by the lectures given by Chairman Sir and Principal Sir.

REPORT

Dadi Institute of Engineering & Technology (DIET) has successfully conducted **INTERNATIONAL WOMEN'S DAY** on 07.03.2020 from 10:00AM onwards at DIET Campus in Seminar Hall I.

Dadi Institute of Engineering & Technology was established by Sarada Educational Trust in the year 2006. DIET is founded by Sri Dadi Veerabhadra Rao, an academician and former Minister as the first multicultural and co-educational college in Anakapalle. DIET is the top ranked Engineering and Management Institute affiliated to JNTUK accredited by NAAC. The college is certified by ISO and associated with many professional bodies in the field of Engineering and Technology. DIET strives to promote high standards among students and enable them to build a new world. Dadi Institute of Engineering & Technology, with the same vision successfully completed 14 glorious and tremendous years of existence with academic excellence.

Every year, DWEC of DIET celebrates INTERNATIONAL WOMEN'S DAY as a customary practice. We are thankful to Sri Dadi Ratnakar, Chairman for encouraging our idea to conduct this event.

International Women's Day (IWD) is celebrated annually on March 8th. The day has got its inception well over a century, with the first IWD gathering in 1911. The day is not country, group or organization specific-but belongs to all groups collectively everywhere around the world. Internationally, purple color symbolizes women. Historically the combination of purple, green and white symbolizes women's equality, originated as a concept from the Women's Social and Political Union, UK in 1908. Purple signifies justice and dignity. Green symbolizes hope. White represents purity. Theme of the IWD 2020 **#EachforEqual** is about '**Collective Individualism**'

Report

Respected sir/madam

Dadi Institute of Engineering & Technology (DIET) has successfully conducted **INTERNATIONAL GIRL CHILD DAY** on 10.10.2020 from 10:00AM onwards at DIET Campus in Seminar Hall I.

Dadi Institute of Engineering & Technology was established by Sarada Educational Trust in the year 2006. DIET is founded by Sri Dadi Veerabhadra Rao, an academician and former Minister as the first multicultural and co-educational college in Anakapalle. DIET is the top ranked Engineering and Management Institute affiliated to JNTUK accredited by NAAC. The college is certified by ISO and associated with many professional bodies in the field of Engineering and Technology. DIET strives to promote high standards among students and enable them to build a new world. Dadi Institute of Engineering & Technology, with the same vision successfully completed 13 glorious and tremendous years of existence with academic excellence.

From this year onwards, DWEC of DIET planned to celebrate **INTERNATIONAL GIRL CHILD DAY** as a customary practice. We are thankful to Sri Dadi Ratnakar, Chairman for encouraging our idea to conduct this event.

International GIRL CHILD Day (IGCD) is an international observance day declared by the United Nations; it is also called the Day of Girls and the International Day of the Girl. October 11, 2012, was the first Day of the Girl Child.

The theme of International Day of Girl Child 2020:

It is celebrated for empowering and amplifying the voices of young girls around the world. The theme for International Day of Girl Child 2020 is “**My voice, our equal future**”.

Dr.J.Babu, Principal of DIET addressed the gathering and convey about importance of girl child in society. They go to school, **help with housework, work in factories**, make friends, care for elder and younger family members and prepare themselves to take on the responsibilities of adulthood. Girls play multiple roles in the household, society and the economy.

Mrs.Lavanya DWEC Co-ordinator of Civil Dept shared her views regarding International Girl child day As a woman, we need to work to ensure that she gets every opportunity to realize her potential. By celebrating, **protecting and educating the girl child**, we empower her. By empowering our daughters we empower their communities which means empowering the nation! Miss.Shabeena DWEC Co-ordinator of ECE Dept shared her views about Educating the girl child produces mothers who are educated and will in return educate their children, care for their families and provide for their children. ... The girl child education also **prepares her to face realities in society** and teaches her to be a good wife and mother.

Mrs.G.SujathaDWEC Convenor from CSE Dept concluded about the Girl child Day .A Girl **will confront man’s negative masculinity**, admire his positive masculinity, bring to his attention the

areas he needs to grow, celebrate his success but let him know he can do more, keep him in check and model to him that a powerful woman is not a threat to a powerful man.

REPORT:

The DWEC of Dadi Institute of Engineering & Technology (DIET) has successfully conducted **Iodine Deficiency Day** on 21.10.2020 at DIET Campusto raise awareness among the young graduates about the serious health consequences posed by the deficiency.

He further explained that Iodine is essential for the healthy functioning of the whole body, including that of the heart, muscles and red blood cells. It also plays an important role for the optimum mental and physical health, and to keep energy levels up.

Ms S.Shabeena, Assistant Professor of Electronics and Communications Engineering in her presentation threw light on Iodine Deficiency Disorders and how Iodine deficiency impairs the cognitive development of children from infancy through to adolescence. Besides, she emphasized that it damages immune mechanisms and is associated with increased morbidity rates.

Mrs.G.Sujatha -DWEC Convener along with the respective Departmental DWEC Coordinators, Dr Challa Narasimham, Principal, Sri Dadi Ratnakar- Chairman, faculty and more than seventy students participated in the programme.

Women inventors are behind a wide range of key innovations, from Kevlar to dishwashers to better life rafts.

“Fewer women run big companies than men named John.” Four years later, a ranking of the 100 most-innovative leaders in the United States contained just one woman. In response to criticism of the profound lack of diversity showcased by the list, the publication’s editor acknowledged that women never stood a chance, given the first filter in their data-driven methodology was possession of the CEO title

Miss.S.Shabeena DWEC Co-ordinator from ECE Dept ,presenting women innovators list & giving her ideas that how to become a innovator & what are the steps to be taken by individual.

Report:

Respected sir/madam

The DWEC of Dadi Institute of Engineering & Technology (DIET) has successfully conducted **One Day Health Awareness Programme** on 03.09.2021 from 2:00PM onwards at DIET Campus through virtual platform.

The programme commenced with welcome note by Mrs G. Sujatha, Assistant Professor of Computer Science Engineering and Convener of DWEC. The guest speaker Dr. J. Bharathi, MS. D.G.O, Gynaecologist in her lecture highlighted that over 50% of adolescents in the age group of 10 to 19 years in India are, short, thin, overweight or obese because of malnutrition.

Besides, explained how adolescent girls especially suffer multiple nutritional deprivations. While more girls suffer from shortness than boys, anemia affects 40% of adolescent girls, compared to 18% of boys, and worsens as they get older.

She also threw light on other problems like eating disorders, mental health problems, early pregnancy and child birth, sleep disturbance, Gynecological problems which youth are incessantly facing in today's modern world.

Dr Challa Narasimham, Principal of DIET in his address emphasized that 'Good nutrition allows children to survive, grow, develop, learn, play, participate and contribute—while malnutrition

robs children of their futures and leaves young lives hanging in the balance'. So, advised the students to develop better food habits for their overall development.

Smt. G Sujatha-DWEC Convener along with the respective Departmental Coordinators, Dr Challa Narasimham, Principal, Sri Dadi Ratnakar- Chairman, faculty and more than eighty four girl students participated in the programme.
