## 1. Title of the Practice: DIET Best Practices – Green campus

## 2. Objectives of the Practice

The Green Campus Audit assessment of an institution is becoming a paramount important these days for self-assessment of the institution, which reflects the role of the institution in mitigating the present environmental problems. The college has been putting efforts to keep the environment clean since its inception. But the auditing of this non-scholastic effort of the college has not been documented. Therefore, the purpose of the present green audit is to identify, quantify, describe and prioritize frame work of EnvironmentSustainabilityincompliancewiththeapplicableregulations, policies and standards. The main objectives of carrying out Green Campus Audit are:

1. To document practices and implementation of rain water harvesting
2. To document the quality of recycled waste water for gardening,  
Zero Liquid Discharge Concepts
3. To document the solid Waste disposal system and e – waste management
4. To document the ambient environmental condition of air, water and noise in the campus.
5. More efficient resource management, paperless of faces
6. To provide basis for improved sustainability and biodiversity
7. To create a green campus
8. To enable waste management through reduction of waste generation,  
solid-waste and water recycling
9. Recognize the cost saving methods through waste minimizing and managing
10. Impart environmental education through systematic environmental  
management approach and benchmarking for environmental protection
11. Financial savings through a education in resource use
