

7.3 Institutional Distinctiveness

Importance and Information regarding Institutional Distinctiveness:

Objectives:

- Development of social competencies: this involves abilities to interact and communicate with others, working in a team with co-ordination and co-operation.
- Develop resilience and team spirit and boost the morale of a student.
- Discuss the relationship among physiological, cognitive, psychological, spiritual and social development to understand his or her thoughts, feelings and behaviour.
- To inculcate human values and professional ethics among the students and make them realize the spirit of humanism and sense of belongingness.
- To make them understand the skills that is required for future success in work life.

Since its inception the institution aimed at bringing holistic development among the students. The institution is committed to usher in social economic transformation by providing quality education to fully meet the expectations of all students. In this context the vision and mission of the institute is premeditated and it is inherited the core values which are required to enlighten the students in their holistic development. Apart from concentrating on achieving the academic pursuits the institution leads the way for social developments through many societal outreach programs with the participation and involvement of students. The student community develop and perceive their own individuality within their band they also gain skills to communicate with other people and processes their actions.
