About Workshop:

The Distinguished Department of Computer Science and Engineering of Dadi Institute of Engineering & Technology, Visakhapatnam conducted the one Week Workshop for the III CSE and CSM Students from 02-01-2024 to 06-01-2024. The AWS Workshop On Cloud Foundations in Association with APSSDC provides a guided path to help Learners to deploy, configure, and secure their new workloads while ensuring they are ready for on-going operations in the cloud. Cloud Foundations helps Learners navigate through the decisions they need to make through curated AWS Services, AWS Solutions, Partner Solutions, and Guidance. These solutions will support your cloud foundation journey, accelerating the deployment of a production-ready environment.

About APSSDC:

APSSDC is the Andhra Pradesh State Skill Development Corporation, the main vision or moto of APSSDC is to make Andhra Pradesh one of the most developed State all over the country.

APSSDC will also serve the important task of providing high quality skilled manpower as part of the "Knowledge and Skills Mission" of GoAP, which is one of the cross-cutting missions among the seven missions formed by the govt to facilitate double digit growth of the state. Thus the main objective of the corporation is to implement a structured and pragmatic solution to skill & upskill the workforce in the state of A.P. and to increase employability, and promote entrepreneurship in sync with Industrial growth of the state.

APSSDC will be staffed with best of talent in this sector & will partner with leading training providers & industry to carry out the training programmes. It aims to develop a best-in-class learning management system and placement and tracking mechanism. Ultimately, it aims to be among the best training provider organizations in the world.

About AWS:

Amazon Web Services (AWS) is the world's most comprehensive and broadly adopted cloud, offering over 200 fully featured services from data centers globally. Millions of customers—including the fastest-growing startups, largest enterprises, and leading government agencies—are using AWS to lower costs, become more agile, and innovate faster. The AWS Cloud encompasses a broad set of global cloud-based products that includes compute, storage, databases, analytics, networking, mobile, developer tools, management tools, IoT, security, and enterprise applications: on-demand, available in seconds, with pay-as-you-go pricing.

About DIET:

Dadi Institute of Engineering & Technology (DIET) - NAAC 'A' Accredited Institute achieved excellence and became a forerunner of designing and initiating novel programs that are relevant to the demands of technical trends. The developments, both in terms of infrastructure as well as academic matters, have gained momentum over the last seventeen years. Recently, DIET has been awarded as TOP RATED INSTITUTE with 4 star rating across India by Institution's Innovation Council, Ministry of Education, Govt. of India for consecutive years 2021 and 2022. Workshop on Effective Sales and Marketing Strategies for Entrepreneurs/Startups

For IVth Semester Students of Computer Science & AIML/DS

Date:-25/01/2025

Time:-1:30 AM to 4:00 PM

Description:

Early start-stage startups need to take advantage of these common marketing strategies to compete for more customers as they grow. While startups have to be resourceful in attracting customers, more established companies do things a different way.

Research shows that 17% of startups fail because they have no clear business model. If you fail to plan how you will acquire customers, deliver value and monetize your offering, it is easy to lose sight of where you are headed.

In this article, we cover the central approach that startups can take to crack it and get sustainable growth in the market.

Understanding Your Market and Your Competition

The first bit of information that makes you familiar with your market is carrying out research in marketing which involves clearly identifying the industry to which you belong, your potential customers and the most recent *market trends*. Begin by looking through industry reports, benchmark surveys and online to get a feel for the landscape.

You may also run your own surveys or interviews with prospective customers to gather first-hand insights. Your goal is to know what your target market needs, likes and does.

After you have a good understanding of the market, look for your target audience: those who are more prone to buy or be interested in what you have. Develop comprehensive customer personas demographics (age, gender, location) psychographics (interests, values & lifestyle) and behavior patterns (buying habits & online activity).

You will use these markers as part of a strategic approach to creating content. And knowing who your ideal customers are will help you tailor your marketing efforts to reach and resonate with them effectively.

Finally, analyzing your competitors is a critical part of understanding your market: Look at who your competitors are, what they offer and how they market their products or services. Pay attention to their strengths and weaknesses and identify any gaps in the market that your startup can fill.

Tools like SWOT analysis (Strengths, Weaknesses, Opportunities, Threats) can be very helpful in this process. Understanding your competition will help you differentiate your business and find your unique selling proposition.
