T&P Cell, Dadi Institute of Engineering and Technology, Anakapalle

“A Two Day Workshop on Entrepreneurship Skill, Attitude & Behavior”

About Dadi Institute of Engineering & Technology:

In the words of Sri Dadi Ratnakar, Chairman of Dadi Institute of Engineering and Technology, Education is the most powerful tool to bring desirable changes in our personality and also to bring positive changes in our society. It is the only medium which enables you to move from darkness to brightness. It is indeed very heartening to witness that Dadi Institute of Engineering and Technology has carved a name for itself in the academic map of the sunrise state of Andhra Pradesh. The deepest desire of the Institution to serve the society has helped in moulding the technocrats and business leaders of tomorrow by providing the world class facilities that enable them to compete with their peers in the global competitive market with a blend of discipline and values.

DIET is the only institute in the entire country focusing on the all-round development of its students with active professional bodies of international repute and has the latest technologies made available for the students to enhance their skills to fit to the requirement of the industry.

DIET has an Active Research Centre that has helped in the establishment of Incubation centre and it is helping the students and faculty to give shape to their ideas. The energetic and dedicated qualified staff of the institute have transformed our institute as a preferred destination for the young techies to build a dream career.

About T&P Cell:

Training and Placement Cell is the backbone of any institute which is committed to develop dynamism, required skills, strong human values, technocratic and good leadership qualities. DIET placement cell was established in 2008 by the management with a prime objective of creating career opportunities for promising DIET students in reputed companies.

It is the dream of every Engineering student to get placed in a top company visiting their campus for recruitment. Keeping this key aspect into consideration, it is realized that training is important for engineering students to enhance their employability skills and achieve good

placement in various companies. At present, the competition for employment is increasing every day and providing placement has become a challenging task. Training of students and equipping them with life skills has become an important responsibility of the institution. Realizing that along with technical expertise, development of a holistic personality is also necessary. For a student to crack the recruitment drives, the placement cell invites reputed trainers from industry and renowned personality development training firms to help the students get equipped with required skills.

Training and Placement Cell in Dadi Institute of Engineering & Technology plays a vital role and is becoming a key department of the institute. As there are large numbers of Engineering and Technology institutes coming up in India, the competition for employment is increasing every day and the job of placement cell is becoming a challenging one. A full pledged placement cell is functioning in the Institute with a full-time Placement officer.

Workshop Poster

About the workshop:

A Two-day workshop on Entrepreneurship Skill, Attitude & Behaviour is organized on 14th & 15th March, 2023 in Dadi Institute of Engineering & Technology in Seminar Hall-II.

Various Resource persons from COIGN Consultants Pvt, Ltd have taken part in the workshop in enlightening the students towards Entrepreneurship. During the workshop it is stated that the Entrepreneurship is the process of starting and managing a new business venture in order to make a profit. It requires a combination of various skills, attitudes, and behaviours

that are necessary for success in today's dynamic and competitive business environment.

Students and Resource Persons during the Inaugural session

Entrepreneurship Skills: To become a successful entrepreneur, one must possess a set of skills that help in running a business. Some of the essential entrepreneurship skills include creativity, risk-taking ability, communication, problem-solving, leadership, monetary

management, networking, and time management. These skills are crucial in establishing and growing a business, and entrepreneurs need to continuously improve and develop them.

Entrepreneurship Attitude: Attitude plays a vital role in the success of an entrepreneur. An entrepreneurial attitude involves having a positive outlook, being open to new ideas, taking calculated risks, being adaptable, and having a never-give-up attitude. Entrepreneurs should be passionate about their business idea, believe in their ability to succeed, and have a growth mindset to overcome challenges and failures.

Entrepreneurship Behaviour: Entrepreneurial behaviour is all about taking action and implementing ideas into action. It involves seeking out opportunities, being proactive, being persistent, learning from mistakes, and continuously improving oneself. Entrepreneurs should focus on developing behaviours that are aligned with their goals, such as networking, seeking feedback, and being flexible in adapting to changes in the market.

In conclusion, entrepreneurship skills, attitude, and behaviour are essential for starting and running a successful business. To succeed as an entrepreneur, one must possess a combination of these three factors and continuously work on improving them. With the right mindset and skills, entrepreneurs can overcome challenges and build a thriving business in today's competitive market.
