### A REPORT ON RESEARCH PAPER WRITING AND FORMATTING

On 18th January 2025, the Department of Computer Science and Engineering (CSE) in association with the ACM Student Chapter organized a seminar for IV B.Tech CSE students on *Research Paper Writing and Formatting*. The seminar was conducted by Dr. K. Sujatha, an esteemed academician and researcher in the field of Computer Science. The session was aimed at guiding students on how to effectively write, format, and present research papers that meet academic standards. This seminar served as an essential resource for students looking to delve into research, write high-quality papers, and pursue further academic or professional ventures.

**Poster:-**

The poster features a light blue and white background with a subtle grid pattern. At the top left is the Diet logo. In the center, the text reads: 'DADI INSTITUTE OF ENGINEERING & TECHNOLOGY (An Autonomous Institute) Department of Computer Science & Engineering Organize a Session on "Research Paper Writing and Formatting"'. To the right is the NAAC 'A' grade accreditation logo. Below this, it says 'in association with ACM Student Chapter' next to the DIET acm Student Chapter logo. At the bottom, three columns of text provide details: Date: 18-01-2025, Time: 10.30 AM onwards, Mode: Online. The names and roles of the resource person, principal, and chairman are listed at the very bottom.

## **Objective:**

The seminar aimed to:

1. Equip students with the skills required to write a structured and well-formatted research paper.
2. Familiarize students with the formatting requirements for research papers in various academic conferences and journals.
3. Introduce best practices in research paper writing, including selecting research topics, conducting literature reviews, and writing in a scholarly manner.
4. Guide students through the submission and publication process of research papers.

### **Resource Person:**

Dr. K. Sujatha, a renowned academician and researcher in Computer Science, was the key resource person for the seminar. Dr. Sujatha has extensive experience in guiding research projects and publishing in reputed journals and conferences. She has mentored numerous students and researchers on the nuances of writing high-quality research papers.

### **Session Highlights:**

Dr. Sujatha began the seminar by introducing the importance of research paper writing in the academic and professional world. She highlighted how effective research papers contribute to knowledge dissemination, innovation, and academic progress.

### **Key Highlights of the Seminar**

#### **Components of a Research Paper:**

- Detailed explanation of sections: Abstract, Introduction, Literature Review, Methodology, Results, Discussion, and Conclusion.

#### **Writing Techniques:**

- Tips on maintaining clarity, coherence, and conciseness in academic writing.

#### **Formatting Guidelines:**

- Adherence to popular formats like IEEE, ACM, and Springer templates.
- Use of reference management tools such as Zotero and Mendeley.

#### **Submission Process:**

- Insights into journal selection, submission protocols, and handling reviewer feedback.

#### **Ethical Considerations:**

- Importance of originality, avoiding plagiarism, and proper citation practices.

### **Conclusion:**

The seminar was an enriching experience for all the students. It equipped them with the necessary skills to approach research paper writing systematically and professionally. The guidance on structuring, formatting, and referencing research papers was particularly useful, and the tools introduced will be invaluable for the students' future academic endeavors.

Dr. K. Sujatha's expert insights and hands-on advice provided the students with a clearer understanding of the research paper writing process and publication standards. Many students expressed that they felt more confident about writing and submitting their own research papers for conferences and journals.

### Select the best journal for submission

- Look at your references
- Review recent publications in each journal
- Ask yourself the following questions
  1. Is the journal peer-reviewed?
  2. Who is this journal's **audience**?
  3. What is the **average time to print**?
  4. What is the journal's **Impact Factor**?
- Decide on one journal. **DO NOT** submit to multiple journals.
