## Report on “Technical Quiz”

Organized by

**Department of Computer Science and Engineering in Association  
with CSI Student Chapter on 10<sup>th</sup> November 2022**

**Event Name:** Technical Quiz

**Venue:** Dadi Institute of Engineering and Technology

**Date:** 10<sup>th</sup> November 2022

DIET Computer Society of India(CSI) organized a “**Technical Quiz**” in the month of November 2022. This contest & competition was organized as a part of Computer Society of India student chapter with an objective to enhance, encourage Coding skills and solving ability among students.

### **About CSI:**

**Computer Society of India(CSI)** is the first and largest body of computer professionals in india. It was started on 6 march 1965 by a few computer professionals and has now grown to be the national body representing computer professionals.

Tech quiz are a great way to test your knowledge and keep up-to-date with the latest trends in the tech industry. These quizzes can cover a wide range of topics such as programming languages, web development, hardware, software, and cyber security. Taking part in a tech quiz is not only fun, but it can also help you identify areas where you need to improve your knowledge and skills. Many companies and organizations use tech quizzes as part of the recruitment process to assess the technical aptitude of potential candidates. These quizzes can help employers identify candidates who have the necessary skills and knowledge to perform specific tasks or work on specific projects.

programming.

A programming competition usually involves presenting a set of logic or math problems to the contestants and requiring them to write computer programs capable of solving each of those

problems. The one that solves the most problems wins and there are tie-breaking criteria such as resolution speed and others.

Thus, the participation of programmers in this type of competition prepares them, in a playful way, for different real life scenarios. Every technology company seeks not only technical preparation in its professionals, but also many of the so-called soft skills, which are over developed in events such as the Marathon. The professional history of competitors from previous editions proves how much this competition adds to the professional future of its participants, given that most of them are employed in the largest technology companies in the world.

At the end of the session prizes had been distributed to the students who got 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> places in the contest.

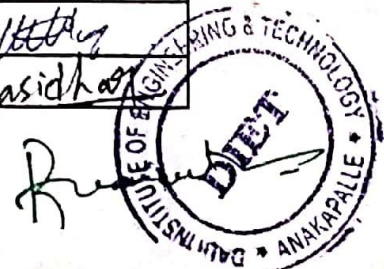

## Students Participated in Programming Marathon

## LIST OF PARTICIPANTS:

| S.NO | ROLLNO.    | NAME OF THE STUDENT              | SIGNATURE  |
|------|------------|----------------------------------|------------|
| 1    | 20U41A4410 | DODDI SRI HARI SAI KUMAR         | Kumar      |
