Awareness session on E-Learning

I am sure you have frequently encountered the words like, e-government, e-health, e-shopping, e-business, e-commerce, e-books, e-libraries, e-learning and so on. Almost everything today has gone electronic, while a few years ago World Wide Web was considered a Privilege, today it is a necessity. Everyone can use and learn from electronic devices. ICT today has the power to transform Education. The new millennium heralds exciting opportunities to diversify the ways in which education is offered. A greater flexibility is provided through online access to learning – when, where and how to do it? Today anyone can obtain education anywhere, anytime through online education. Thus, breaking the shackles of traditional classroom and adapting to new and electronic learning Technologies empowers all learners irrespective of their diversities. This development in ICT has resulted in a learning environment called e-learning.

OBJECTIVES

After Studying this Unit, you will be able to

- sketch the History of e-learning
- define e-learning and blended learning
- explain the Characteristics of e-learning
- distinguish between Synchronous and Asynchronous e-learning
- classify the e-learning Technologies
- explain the features of Learning Management System(LMS)
- differentiate LMS from LCMS
- list the advantages and Limitations of e-learning
- list examples of different Learning Management Systems
- use learner management system
- explain the importance of e-learning standards

E-learning - CONCEPT AND CHARACTERISTICS

What is eLearning?

E-learning is essentially imparting education through computer and network enabled digital technologies which include among other things, internet, intranet, computer, satellite TV, CDROM, audio and video resources.

The term e-learning was first used in the professional environment in the year 1999 at CBT Seminar at Los Angeles. Therefore e-learning could be broadly defined as use of Information and Communication Technology (ICT) to enhance and support learning. This could range from teachers and students using e-mail for communication to entirely online courses. This term is used synonymously with virtual learning, online learning, computer based learning, web based learning, and networked learning.

E-learning is defined by many people, in many ways, since the term e-learning is used inconsistently, in order to gain a clear understanding of what e-learning is, here are a few definitions of e-learning.

The letter "e" in e-learning stands for the word "electronic", e-learning would incorporate all educational activities that are carried out by individuals or groups working online or offline via networked or standalone computers and other electronic devices.

- Brandon Hall defines E-learning as: "...instruction that is delivered electronically, in part or wholly via a Web browser, through the Internet or an intranet, or through multimedia platforms such as CD-ROM or DVD."
- Rosenberg: "E-learning refers to the use of Internet technologies to deliver a broad array of solutions that enhance knowledge and performance." Rosenberg claims that e-learning is based on three fundamental criteria:

DADI INSTITUTE OF ENGINEERING & TECHNOLOGY

(Approved by A.I.C.T.E & Affiliated to JNTU, Kakinada)
ISO 9001:2008; ISO 14001:2004 & OHSAS 18001:2007 Certified Institution
NH-5, Anakapalle-531002, Visakhapatnam, A.P

- E-learning is networked, instant updating, storage and retrieval, distribution and sharing of information is therefore possible.
 - E-learning is delivered to the end-user via a computer using standard internet technologies.
 - E-learning focuses on the broadest view of learning: Learning solutions going beyond the traditional paradigms of training.
 - E-learning involves the use of a computer or electronic device (e.g. a mobile phone) in some way to provide training, educational or learning material.
-
- Defines e-learning as: Web-based training (WBT), also known as e-learning and on-line learning, is training that resides on a server or host computer that is connected to the World Wide Web.
 - "E-learning refers to educational processes that utilise information and communications technology to mediate synchronous as well as asynchronous learning and teaching activities"
 - "E-learning is the use of new multimedia technologies and the Internet to improve the quality of learning by facilitating access to resources and services, as well as remote exchange and collaboration."
 - "E-learning is the delivery of education (all activities relevant to instructing, teaching, and learning) through various electronic media"

Thus, E-Learning is the use of technology to enable people to learn anytime and anywhere. E-learning can include training, the delivery of just-in-time information and guidance from experts. E-learning could also be considered distance education in an evolved form, which has taken advantages of all the emerging technologies for enhancing learning experiences of every learner. In that sense e-learning could be considered as a new generation of distance education.

Characteristics of E- learning

- **E-learning is Learner-Centric Learning:** The learner centric e-learning model makes an array of resources available to the learner, who is free to choose when, where and how to learn.

- **E-learning for lifelong learning:** With increasing access to technologies and its ever increasing sophistication this approach to learning facilitates lifelong learning among various stake holders.
- **E-learning is Flexible Learning:** E-learning has historically been linked with distance education and flexible learning. In distance education, various technologies can be used to link learners, instructors and resources that are removed in time or space. The hallmark of flexible learning, as its name suggests, is its adaptability to learners' needs and circumstances.
- **E-learning is Social:** E-learning seeks to foster collaboration and peers interaction. Various e-learning technologies facilitate various types of collaboration among learners and teachers.
- **E-learning Involves Learning Objects:** E-learning uses reusable learning objects. This RLO permits one to create e-learning course with ease.
- **E-learning is Personalized:** Usually e-learning system permits its users to personalize the learning by tailoring its offerings to their learning style, job requirements, career goals, current knowledge and personal preferences.
- **E-learning Involves Effective Communication:** The effectiveness of e-learning also depends on establishing two-way communication between teachers and learners, and among learners themselves. There are many standalone tools as well as learner management system integrated tools to foster interactive and collaborative engagement.

Impact of E-

learning:

- Social interaction and connectedness through different digital and online platforms.
- Exploring more global e-resources including lecture series, e-book, online documents and journals.
- Increase IT skills in all the stakeholders related to teaching learning system.
- Flexible learning for all.
- Enhanced research collaboration with global institutes.
- Wide global conference, webinar, conclaves, meeting and discussion in digital platforms.
- Connecting large no of people in a single digital platform within a very short intervals of time.
- Economically disadvantage students, physically challenged and all other get benefited through these digital platforms.

Campus Recruitment Training

Department of Training and Placement cell of DADI INSTITUTE OF ENGINEERING AND TECHNOLOGY is a unique unit which handles all sorts of trainings for IV B. Tech, students of our Institution. It also provides best placement opportunities for eligible student of our college.

Vision : Equipping all our students with conceptualized professional skills and providing them a path towards a bright future.

Mission : Strive and achieve 100% placement.

Goals: To enhance the employ-ability skills among our students such that they meet out the corporate expectations.

To improve and focus on the industry – institute relationships to provide more opportunities to our students in the prospective IT and Core Companies. To enhance the student's interest towards the entrepreneurship, latest technologies and new business strategies.

Objectives: To provide best available trainings for our students through continuous training modules. To approach top multi-national companies for arranging the campus recruitment To counsel individual (based on student interest) the students to improve their career exposure across the global.

REPORT

Respected sir/madam

This is to inform you that we have conducted Health Awareness & Women Empowerment Program for all the girl students & lady faculty to bring awareness on hygiene and maintenance of good health.

Prof.P.NARASHIMHA RAJU, Department of BS&H addressed the students on the importance of women empowerment. He emphasized that women plays an important role in the development of individual family in turn the society.

Further, Prof. M. Lalitha, Department of BS&H addressed the student community on how to adopt oneself to maintain hygienic and good health. Girl students have to take food which improves their HB which in turn makes them to be healthy and energetic.

Department Women Empowerment Cell thanked Sri Dadi Ratnakar, Correspondent & Secretary, Dr. M. Venu Gopala Rao, Principal, DIET, Dr. K. Amarendra, Vice Principal and Professor M. Babitha Jain, Dean Academics for being a part and making this program grand success.

Our special thanks to Dr.K.Rama Rao, Dean Admin who provided all the necessary facilities for the smooth conduct of the program.

Prof.P.NARASHIMHA RAJU, Department of BS&H addressing the students

Prof. M. Lalitha, Department of BS&H addressing the student

TRAINING & PLACEMENT CELL cordially invites students of

II B.Tech for

Language Skill Development Program

From 01-08-2016 to 13-08-2016

VENUE : Communication lab & Seminar hall-1

**PRINCIPAL
DIET**

The language skill development program plays an important role in the language learning process.

The focus is on the analysis and evaluation of receptive & productive skills based on various task- based/machine-based activities. It also focused on the development of target and scenario-based communication processes using correct English for language learning purposes. It focuses on the development of students' language & communication skills, critical thinking, and problem solving skills through the

understanding of 4 pillars of English Language viz. Listening, Speaking, Reading and Writing.

Listening Skills

Listening is a receptive language skill which learners usually find the most difficult. This often is because they feel under unnecessary pressure to understand every word. The listener has to get oriented to the listening portion and be **all ears**. The listener is also required to be attentive. Anticipation is a skill to be nurtured in Listening.

In due course of listening, be in a lookout for the sign post words and one should be able to concentrate on understanding the message thoroughly. Listening Skills is enhanced by focusing on making the students listen to the sounds and help them with the right pronunciation of words.

In our Language Lab:

We progress from Attention to Accuracy through Situational Conversations/Role Play/Development of Argumentative Skills (using BEC audio in the Labs) and then the assessment is carried out.

Speaking

Language is a tool for communication. We communicate with others, to express our ideas, and to know others' ideas as well. We must take into account that the level of language input (listening) must be higher than the level of language production. In primary schools, elocution and recitation are main sources to master the sounds, rhythms, and intonation of the English language through simple reproduction. Understanding of para-linguistic attributes such as voice quality, volume and tone, voice modulation, articulation, pronunciation etc helps to better this skill.

What we do?

We initiate with make a presentation on self- followed by the basics of Public speaking; Etiquette while following correct voice modulation and acceptable Paralinguistic features. As we gear up for our further sessions, we assess the ability of being able to use acquired Speaking Skills using Extempore- Continuous Evaluation tool.

Finally, through self-reflection activity, they will be able to make a comparison in one's evolution in terms of one's communication ability in a semester

Reading

Reading is a learning skill. It helps you improve all parts of the English language – vocabulary, spelling, grammar, and writing. It helps to develop language intuition in the corrected form. Then the brain imitates them, producing similar sentences to express the desired meaning. Using skimming or scanning technique to read quickly is highly effective. While reading underlining of key words is necessary. Reading Skills help the students grasp the content and draw conclusions. The students should also make it a point to familiarize themselves with the jargons and new words by making reading a habit be

it reading newspapers, articles, books, magazines etc

What we do and assess in labs?

We expose them to the different techniques of reading and we take them through the practice session through mind map. Then we assess the ability of Reading Comprehension using standard BEC Reading Comprehension using Continuous Evaluation tool.

Communication lab at 4th Floor

Writing

Writing provides a learner with physical evidence of his achievements and he can measure his improvement. It helps to consolidate their grasp of vocabulary and structure, and complements the other language skills. It helps to understand the text and write compositions. It can foster the learner's ability

to summarize and to use the language freely. To write flawless language one should excel in the Writing Skills with the help of various methods. Importance should be given to composition and creative writing. One should also focus on coherence when it comes to writing a language.

In these sessions, we help them to identify and apply critical thinking skills in writing. Assessment session helps them to apply language & reflective skills to create a write up for given iconic images.

Teaching of English language while ensuring focus on all these four skills provides a platform for the learners to hone their proficiency in this language well.

DADI INSTITUTE OF ENGINEERING & TECHNOLOGY

(Approved by A.I.C.T.E., New Delhi & Affiliated to JNTUK, Kakinada)

An ISO 9001:2008; ISO 14001:2004 & OHSAS 18001:2007 Certified Institution

NH-5, Anakapalle – 531002, Visakhapatnam, A.P.

Mobile: +91 9963981111, Website: www.diet.edu.in, E-mail: info@diet.edu.in

Components in the language lab:

- Teacher has a computer with Clarity for conducting language exercises
- Teacher and students wear headsets that block outside sounds and disturbances
- Students have a media player/recorder for listening to audio and recording speech
- Teacher and student positions are connected via LAN (local area network), in some cases also via separate audio cabin.

Syllabus for Language Skill Development Program

MODULE-1

ICE BREAKERS: Conduct activities that serve as conversation starters among the students.

SELF INTRODUCTION: Ask each student to introduce themselves in a creative way and talk about their personal and professional interests.

PARTS OF SPEECH: NOUNS, PRONOUNS, ARTICLES, ADJECTIVES,
DEMONSTRATIVES, ADVERBS, PREPOSITIONS, CONJUNCTIONS, INTERJECTIONS

TENSES: Past, Present and Present continuous activities

MODULE-2

SENTENCE CONSTRUCTION:

DIALOGUES: Divide into pairs and ask students to come up with an imaginary situation and create a meaningful dialogue for the same.

READING, WRITING, LISTENING AND SPEAKING SKILLS: Reading a fairy tale or a short story, writing about a most unforgettable incident of their lives. Play an audio piece and ask them to answer questions based on what they have heard.

PRESENTATION SKILLS: Make students present a topic of their choice in a creative manner or divide into groups and advertise a product.

MODULE-3

PRONUNCIATION PRACTICE: Make a list of 1000 commonly used words in the English Language and make them pronounce it correctly.

SOCIAL ETIQUETTE: Teach them the basic etiquette to be followed while talking and avoid common errors like using filler words.

A REPORT ON 3rd INTERNATIONAL YOGA AWARENESS PROGRAMME

On the eve of international yoga day, the Diet Nss unit conducted yoga day on June 21st in the diet college premises. In the event nearly 100 students participated and made several yoga asanas. The yoga instructor Nandala Nagesh who participated and looked after the entire event. He insisted the importance of yoga asanas and their importance to person from small kid to elderly person. He said that he felt very happy that international yoga day had been declared on 21st june. It was only by our honourable prime minister Narendra Modi who explained the importance of yoga and requested the committee of UNO who immediately declared june 21st as yoga day. The principal said that now a days every one leading mechanical life and ignoring healthcare. So, by doing yoga for half an hour everyday one can keep good physical and mental health.

Yoga Asanas by chairman, staff and students.
