Greetings from Dadi Institute of Engineering & Technology!!!!

DIET LITERARY AND CULTURAL CLUB (DLCC) has conducted “ Making of Innovative Ganesh Idols” competition on 31st Aug 2019 on the Eve of Ganesh Chaturthi. ## Ganesha with waste!

### Creation of engineering students Anakapalli town, Newsday:

The latest forms of Ganesh are impressive with the ideas of engineering students. As part of environmental protection, the students dazzled by making Ganesh idols out of waste. The statues made by the diet engineering students of the town made of paper, flour, CDs, coconut husk etc. are a special attraction. The students said they made these with the idea of campaigning to stay away from the plaster of Paris. CSE, ECE, Civil and EEE students of the college beautifully made colored laddi for Ganesh made of paper as part of their project. Statues made of waste are a special attraction. These were put on display. College Principal Dr. Nagaprasad and Vice Principal Dr. Ishwara Rao congratulated the talented students. With CDs .. The form of the coconut enumerator Vignadhipati as a soldier who made paper .. We made a statue of Vinayaka with paper. Add light colors to make it more beautiful. Everyone was very impressed. The statues made by our fellow students are also unique. Statues made of waste are still good. - Venkatalakshmi, Hemalata, Engineering students to detect danger beforehand.. We made the statue of Vinayaka with CDs and more equipment. There is something special about this. Most people do not take care when putting up pavilions in the streets. There are chances of a short circuit. The idol we have made will give us a warning before such a thing happens.

## Rangoli Competition Depicting the Colorful Joy

10th January, 2020

Organized by

**DIET Literary & Cultural Club**

Respected Sir/Madam,

Greetings from Dadi Institute of Engineering & Technology

**Event date:** 10th January 2020 on occasion of PONGAL CELEBRATION 2020 EVENT

**Events conducted:** Rangoli.

**Place of event:** Open lawn

**No of participants:** 126

**Coordinator:** Mrs.K.Manoharan

**Judges:** Mrs. T.Sujatha, Mrs. Madhuri

*Rangoli* is an art form originating in the Indian subcontinent, in which patterns are created on the floor or a tabletop using materials such as powdered lime stone, red ochre, dry rice flour, coloured sand, quartz powder, flower petals, and coloured rocks. Rangoli are usually made during Diwali or Tihar, Onam, Pongal, Sankranti and other Hindu festivals in the Indian subcontinent, and are most often made during Diwali.

A Rangoli is a form of Indian folk art that uses intricate or simple patterns and geometric shapes, often symbolic, to create a sacred welcoming area for Hindu deities, or simply as decoration believed to bring good luck. The competition was judged by the very talented judges. The competitors gave out a variety of rangoli designs representing the importance in celebrating the festival. They came up with such a variety of designs which in turn attracted the audience as well.

## **Kite Flying – Depicting the Tradition**

*“The greatness of a culture can be found in its festivals”.*

India is known for its diversity, its colors and its rich traditions. When you think of India you associate it with energy, vibrancy, and above all festivals. In a country where so many traditions coexist, every day is a celebration. The biggest attraction of Makar Sankranti is kite flying. Like every year, this year also kite flying competitions were conducted on 10<sup>th</sup> Jan 2020, on the eve of Pongal Celebrations in DIET. A total of 57 students participated from all the branches and exciting prizes were given to the winners. Founder of the college inaugurated this event and it was an eye feast to watch the colorful kites flying in the sky.

to the least of my surprise, I am seeing more and more people joining hands with us and the number of students developing interest in music is also increasing.

## **Chief Guest Sri Dadi Ratnakar addressing the gathering**

Dr.CH.S.Naga Prasad, Principal has addressed that, music works as a medicine for those students who are going through these several problems like depression, obesity etc. We have admitted many students who are suffering from these problems physically or mentally and in a few classes we have seen positive results. Music helps in maintaining body balance physically as well as mentally. It helps in creating a feeling of joy in the mind that helps in relaxation of the nervous system. Music can be used as a tool for increasing concentration power also. It is the best solution to find peace for mind or body because of the busyness of our today's lifestyle.

Organized by  
Diet Literary & Cultural Club

Respected Sir/Madam,

Greetings from Dadi Institute of Engineering & Technology

To uphold the Indian heritage in the occupation of pot making, Pot painting event was conducted by DLCC as part of annual day in DIET college. "*Clay can be dirt in wrong hands but can be picturesque in the hands of artisans*". Total 31 students participated in pot painting. Students with their artistic bent perception painted the pots aesthetic with beautiful themes. Well painted themes on pots are sensuous and inspired many of us. Our Management has provided gifts for each and every participant. The event ended successfully with joy and fun. It was an event where the students had to paint the earthen pots

The themes were decided by the students where the participants came up with the diverse state of mind and painted the pots very artistically. This event not only helped them to enhance their creative skills and talent but it also enriched the sense of participation

Sri **Dadi Ratnakar**, Chairman of Dadi Institute of Engineering & Technology, he appreciated all artisans who participated in the event with a discourse on pot making occupation by encouraging all our traditions

Dr **Ch S Naga Prasad**, Principal of DIET appreciated arty-crafty students.
