Greetings from Dadi Institute of Engineering & Technology

Venue: Online

The holy festival of Ganesh Chaturthi is celebrated every year with great fervour in the country with thousands of devotees thronging temples and ‘Ganeshotsav pandals’ to offer their prayers

As a part of **Ganesh Chadurthi**. DLCC has conducted an online event about Eco friendly Ganesh idols with the theme “**Be The Change Go For Green (Clay) Ganesh” Be Eco-Friendly...Use Eco-Friendly...**”

We created awareness among students to choose clay Ganesh idols instead of those made of plaster of Paris or those painted with chemicals

Students participated in the event & prepared Eco-Friendly Ganesh Idols with “Mud/Clay”/ “Turmeric” / “Flour”.

vocational education, Academic Bank of Credit etc. he informed how all these recommendations have generated a renewed interest in holistic and multidisciplinary education and thereby put Bharat on the path to Vishwaguru, again.

Prof. J.Babu provided a deep insight on the topic “Building a knowledge society through Holistic and Multidisciplinary higher education”.

Citing various initiatives of the Govt. since 2014 **Prof. Ch.Prabhakar** observed that the holistic and multidisciplinary reforms in NEP 2020 are in sync with the Govt. approach to inculcate the culture of innovative, flexible and open curriculum. The way to evolve holistic and multidisciplinary education is to make education more experiential, interesting, integrated, inquiry-driven, discovery-oriented, learner-centered, discussion-based, flexible and enjoyable. Referring to what constitutes a good education in ancient times, he said such notion of knowledge of many arts including its modern application will place Bharatiya higher education in a different sphere to give us an edge in 21st century.

The talk by **Ms. P.Jagruthi** dealt with “Towards transforming Higher Education through Multidisciplinary and Holistic approach”, one of the proposed objectives of National Education Policy. In her speech, she said that one of the important things about the policy is it requires an individual to learn how to learn. Besides, she dwelt in detail about establishment of one multidisciplinary institution in every district by 2030, allowing free subject combinations which are in line with the global demands. Further, the talk throws light on attaining the objectives of internationalization, reforms in teacher education, and regulatory reforms and considered these reforms as the right moves to meet the diverse global demands through multidisciplinary system.

Mrs.D.L.Mythri later explained that it is not only the subject specific knowledge which matters but also as how the discourse need to be conducted also matters. In addition to espousing holistic and multidisciplinary education she also elaborated on ways to make education holistic and how to achieve the culture of multidisciplinary.

He said *“The webinar which shall be the first among a long series of subsequent ones will create a comprehensive knowledge base and further promote an international policy of Indology. This is in the lines of the several firsts we have achieved in various scientific and technological progress of our nation which has led to us becoming an Institute of Eminence”*

Prof. J.Babu provided a deep insight on the topic “Indian Knowledge system, languages, arts and culture”.

Prof. Ch.Prabakhar spoke about Arts and Culture saying that “Promotion of Indian Arts & Culture is a priority that will benefit not only the nation but also the individual”. It is necessary to introduce students to their culture which will enable them to have a sense of belonging and identity and will also help them value their culture & traditions. The students must develop a strong sense of their own cultural history, languages, arts, and traditions which will also boost their self-esteem and benefit society as a whole.

The talk by **Mrs.D.L.Mythri** dealt with the promotion of Indian languages will be integrated into school and higher education at every level. In order to help students learn these languages, there will be ensured availability of high-quality learning materials in the form of workbooks, textbooks, magazines, videos, poems, plays, novels, etc. Moreover, the language must have a consistent update to their vocabulary in the dictionary so that the students can be provided with education in terms of the latest topics and issues of the country.

The promotion of Arts & Culture will also include the inclusion of native Indian languages including the tribal languages in the curriculum for Science, Arts, Humanities, and other streams. Moreover, there will be flexibility for the students to choose a balanced course; especially in higher education and secondary schools; and formulate personalised cultural, artistic and academic paths.

SINGING OF RASHTAGAAN

DIET Literary and Cultural Club (DLCC)

As a part of the Government of India's celebrations under the 'Azadi Ka Amrit Mahotsav' to commemorate 75 years of India's Independence, Prime Minister during his "Mann Ki Baat" address of 25th July 2021, had urged citizens to sing the National Anthem to create a "Rashtra Gaan" record. It is an effort to get the "maximum number of Indians" to sing the National Anthem together. A compilation of the uploaded videos of the National Anthem will be shown live on 15th August, 2021.

DIET Literary and Cultural Club (DLCC) coordinated the initiative being taken by the central government under the Azadi ka Amrit Mahotsav which was announced by our Honourable Prime Minister Narendra Modi

As a part of the Government of India’s celebrations under the ‘Azadi Ka Amrit Mahotsav’ to commemorate 75 years of India’s Independence, Prime Minister during his “Mann Ki Baat” address of 25th July 2021, had urged citizens to sing the National Anthem to create a "Rashtra Gaan" record. It is an effort to get the "maximum number of Indians" to sing the National Anthem together. A compilation of the uploaded videos of the National Anthem will be shown live on 15th August, 2021.

Prof. Challa Narasimham, Principal, Dadi Institute of Engineering and Technology has taken up this activity and instructed all the staff and students to participate. He also informed that it is our responsibility as a citizen of India and should show our due respect towards the initiatives taken up by the govt of India in promoting our Patriotism .

The following steps need to be followed for singing and uploading the video:
