He became very naughty and careless. 3<sup>rd</sup> year of his Engineering life was very worse as he was having many backlogs and used to be regularly absent to the college. Later on with serious mentoring and continuous guidance from his mentors he started clearing up all the backlogs. During his final semester he started thinking of his career and started planning for it. He wanted to go for his MS and even took coaching for it.

Name: Varahalu S

Branch: ECE

Batch: 2015-19

## Academic Journey:

He was an introvert during his first year of education. He was an average student till his intermediate. During his engineering tenure he was fascinated with extracurricular activities and piled up his backlogs count. Every faculty spotted him to improve his academics and communication skills. He was very careless regarding his career. Later on with the suggestions and guidance from his mentor lot of change has been observed in him in terms of his attire, attitude and performance. Slowly he started to concentrate on his career and developed a lot of self confidence and finally proved his strength by achieving a couple of offer letters from various companies. He also inspired many of his juniors telling them to set a goal initially for better career.
