### **A SESSION ON LEADERSHIP STYLES**

The career guidance cell in association with the department of Management

Sciences conducted a session on “Leadership Styles” on 05-09-2017. Professor Krishna Mohan, from Andhra University was the resource person. He opined that Leadership always starts with vision and the leader influencing everyone to see the same vision. So leadership, in its simplest form, is the ability to turn vision into reality

**He conveyed "A good leader should always ..."**

And said that how one finishes the above sentence could reveal a lot about their leadership style.

He opined that Leadership is a fluid practice. We're always changing and improving the way in which we help our direct reports and the company grows. And the longer we lead, the more likely we'll change the way we choose to complete the sentence above.

But in order to become better leaders tomorrow, we need to know where we stand today. To help you understand the impact each type of leader has on a company, I'll explain what a leadership style is, then share eight of the most common types and how effective they are.

The event was graced by Principal Dr.Ch. Prabhakara Rao, Career Guidance cell in charge Mr. Palla Venkata Murali and HODs of various departments.
