Awareness session on Artificial Intelligence and Machine Learning

The career Guidance cell has organized An awareness session on Machine Learning and Artificial Intelligence for the students of first year students of AIML on 16th April, 2021. Mr. Vinod Kumar Sunkara, Sr. Software Engineer from Facebook Inc., Washington was the resource person. He briefed the students about the prospects of Artificial Intelligence and Machine learning and career opportunities.

He said that Artificial intelligence (AI) is changing how people live and work. Thanks to intuitive machine learning systems, the ability to predict, personalize, and customize has reached new levels.

Mr. Vinod said that these capabilities of prediction, personalization, and customization make AI the perfect match for cyber security awareness training. Now companies can give their employees security awareness training that adapts to what they know and how they learn, meshes perfectly with their roles and challenges, and makes training interactive and dynamic.

He also stated that AI lets the employer give employees the right type of training at the right time to address the latest cyber security threats and risks. This ultimately makes it possible for you to change human behavior and eliminate risk by focusing on the individual needs of each participant.

He appreciated the students for opting the latest and trending stream of Engineering and wished them to have a bright future.
