Key Points Discussed:

- 1. Diverse Range of Startups:** InnoQuest attracted startups from various sectors including technology, healthcare, sustainability, and finance. The diversity in the range of startups showcased the broad spectrum of innovation present in today's entrepreneurial landscape.
- 2. Pitch Sessions:** One of the main highlights of InnoQuest was the pitch sessions where startups had the opportunity to present their business ideas to a panel of judges comprising experienced investors and industry professionals. The pitch sessions were dynamic and engaging, allowing startups to succinctly articulate their value proposition, market potential, and scalability.
- 3. Networking Opportunities:** The event provided ample networking opportunities for entrepreneurs to connect with potential investors, mentors, and partners. Networking sessions facilitated meaningful interactions, knowledge sharing, and collaborations among participants, fostering a vibrant entrepreneurial community.
- 4. Expert Panels and Workshops:** InnoQuest featured expert panels and workshops covering various topics such as fundraising strategies, market insights, technological innovations, and growth hacking. These sessions provided valuable insights, guidance, and actionable advice for startups to navigate the challenges of building and scaling their ventures.
- 5. Startup Showcases:** Throughout the event, startups had the chance to showcase their products or prototypes, allowing attendees to interact directly with the innovative solutions being developed. This interactive format enabled startups to receive feedback, validation, and potential customer interest, essential for refining their offerings and market positioning.
- 6. Recognition and Awards:** InnoQuest recognized outstanding startups with awards and accolades, acknowledging their innovation, impact, and potential for growth. These awards served as a catalyst for further visibility, credibility, and opportunities for the winning startups.

Expert talk by Dr. K Sujatha is addressing II, III & IV B.Tech. Civil students

An Eminent Expert Dr. K Sujatha, in his session explained in detail on the scope and sequential approach for innovative start-ups and entrepreneur skills in Civil Engineering and further discussed on the opportunities at Global level. He stressed on the passion that should be possessed by young engineers who are the future for building the great Nation. In this regard, he shared his personal experience during his research career where he received very little guidance towards the path of his future. He further added with a strong determination to provide young Civil Engineers all sorts of resources and guidance, he started a Global platform named as “Entrepreneurship” which provides global view to all the Civil Engineering aspirants both students and professionals. The main reason to bring students and professionals on a single large platform is to bridge the gap between start-up and company.
