Agenda 1: Emphasize on in-house interdisciplinary projects

Resolution:

Industry representatives emphasized the importance of strong academics and implementing in-house projects for engineering students. More further suggested that interdisciplinary projects may be implemented across all the departments. This proposal is also supported by student representatives.

Agenda 2: Strengthening the T&P and arranging industrial training for students

Resolution:

Management members suggested strengthening the college's training and placement activities and arranging industrial training for students. Industry representatives further added that more interdisciplinary projects can be undertaken for creating awareness for longer durations in the industry. Further students should be made aware about the opportunities in sales and marketing. Institute can arrange competitions for problem identification within campus followed by competition to derive the solution towards identified problems. HOD, Civil Engineering further informed about the planning of a 4-day workshop for Civil Engineering students to cover concepts as an initiative for bridging the curriculum gap.

Agenda 3: Registration of students for professional certification courses

Resolution:

It is discussed that for the students of Computer, AI&DS emphasize may be given on internships and projects in the emerging fields such as AI, Blockchain, Cloud Technologies, etc. and for students of Civil Engineering, the emphasize may be given on Product Design and Development. Also students should be encouraged to pursue professional certification courses such as Microsoft Azure, Cloud Computing, and AWS.

Agenda 4: Measures for personality development of the students

Resolution:

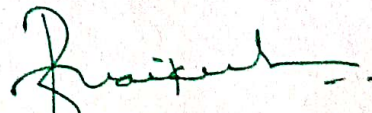

Student representatives expressed a view that many of the students lag in communication skills. They suggested initiating activities to improve soft skills, communication skills, personality development and confidence building activities.
